County IT Projects

Quarterly Progress Report

1st Quarter, FY17-18 July 1 – September 30, 2017

The Quarterly OC Information Technology (OCIT) Project Progress Report provides the status of all County IT projects with a budget of \$150,000 or more and/or that have been identified as meriting Board of Supervisors attention.

The IT projects included in this report reflect the County's ongoing commitment to align IT with the County's business values. Projects included in the portfolio cover the upgrade or replacement of aging infrastructure and near-obsolete or end-of-life systems as well as investment in new technology and platforms. These projects also enhance the County's ability to maintain critical business operations, improve productivity, and deliver more and better services to constituents.

In addition to the status of these projects, this report describes the County's IT project performance trends over the last four quarters.

Highlights

At a Glance

The number of projects in this reporting period is 17, the same as was for the last quarter. The total budget decreases from \$48,197,834 to \$38,590,140. All of the projects are within budget. During this reporting period, besides the Voice and Data Network Transformation project, three (3) other projects experienced schedule delays due to various reasons, such as additional product enhancements and dependency on department resource availability.

New IT Initiatives

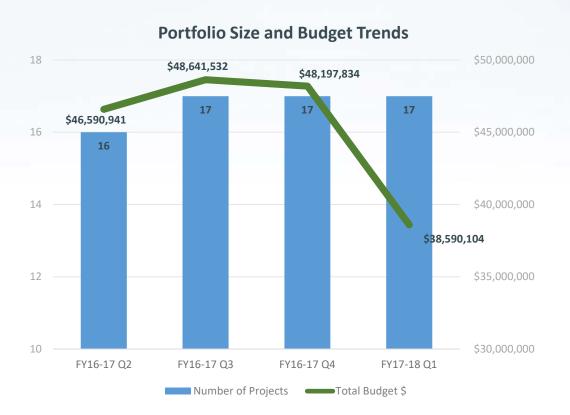

Three new projects were initiated during this reporting period. They are the upgrade of the Virtual Timecard Interface (VTI), the implementation of a single ticketing system (ServiceNow) for Shared Services departments, and the deployment of Secure DNS solution to further protect the County against cybersecurity threats via the Internet.

IT Portfolio Size and Budget

This chart depicts the County's IT project portfolio size and budget trends over the last four quarters.

Project data from the last four quarters reflect a stable portfolio of an average of 16.75 and median of 17 projects.

This quarter's budget decreased by more than \$9.6M (20%) due to completion of the CAPS+ Upgrade and the Electronic Health Records Systems for the HCA's Behavioral Health and Public Health.

The charts above reflects projects that were active or completed during the reporting period.

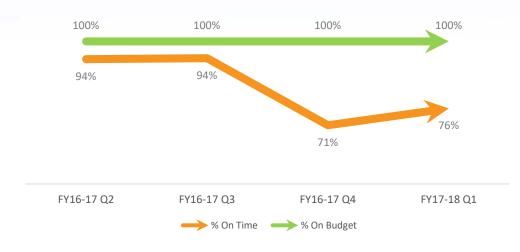

IT Portfolio Performance

This chart depicts the County's IT project schedule and budget performance trends over the last four quarters.

Project Performance Trends

All projects have stayed within budget throughout the last four quarters.

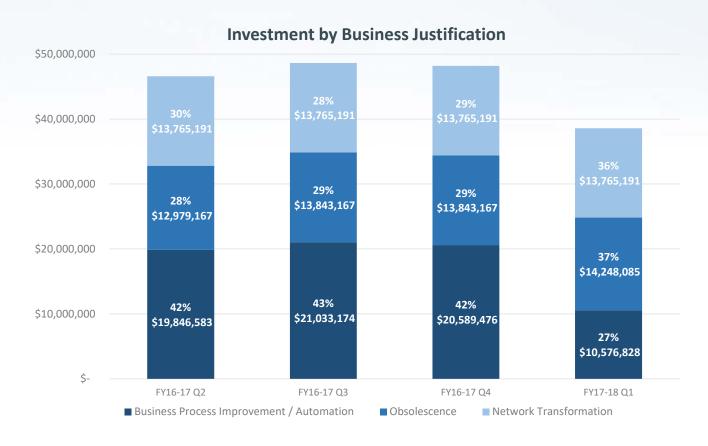

Besides the Voice & Network Transformation project, three projects are behind schedule due to various reasons such as additional product enhancements and dependency on department resource availability.

The charts above reflects projects that were active or completed during the reporting period.

Project Investment Trends

Together with the Voice and Data Network Transformation project, the County's IT projects to replace obsolescent systems and technologies account for more than 50% of the County's IT investments over the last four quarters.

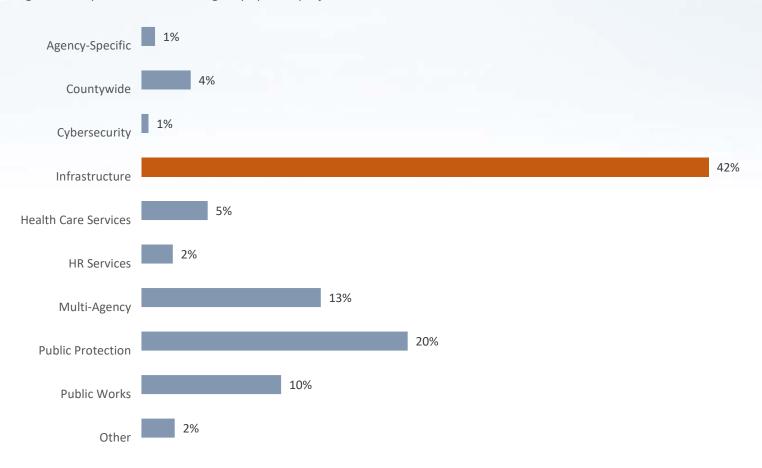

The chart above reflects projects that were active or completed during the reporting period.

Investment by Service Area

Excluding certain agencies/departments, the County is investing more on Countywide projects or those that cross multiple agencies/departments than on agency-specific projects.

The chart above reflects projects that were active or completed during the reporting period.
